

System transFORM+

Das System transFORM+ zeichnet sich durch seine extreme Flexibilität und Vielfältigkeit aus. Aus einem Grundprofil und 3 Abdeckprofilen lassen sich Lamellenwände, Nischensysteme, Solitärregale und Wandborde gestalten. Die Profile stehen in 2 Standardfarben zur Verfügung, können aber optional durch andere Farbgebungen, sowie der Ummantelung mit Echtholz furnier oder Dekorfolien kundenspezifisch angepasst werden. Zusätzliche Funktionalität bietet das System durch die Möglichkeit die Produkte mit handelsüblichen 8 mm LED Stripes zu beleuchten und bei waagerechter Montage diverse verschiebbare Funktionselemente einhängen zu können.

The transFORM+ system is characterized by its extreme flexibility and diversity. Lamella walls, niche systems, solitaire shelves and wall shelves can be designed from a basic profile and 3 cover profiles. The profiles are available in 2 standard colours, but can optionally be customized with other colours, as well as covered with real wood veneer or decorative foils. The system offers additional functionality through the possibility of illuminating the products with commercially available 8 mm LED stripes and to be able to hang in various sliding functional elements when mounted horizontally.
